

Sarah-Damaris Bat Yeshuah

We all know that Jesus had to have a wife; otherwise, he wouldn't have been allowed to be a Rabbi, and he wouldn't have been allowed to preach. The Sanhedrin and the Pharisees would have shut him down immediately if he didn't have a wife. Since Jesus had to have a wife in order to be accepted as a Rabbi and a teacher of the people, the question becomes, "Who was she?"

Mary Magdalene was the only woman Jesus was ever seen kissing on the mouth. Legend and common sense tell us that she was his wife. However, the real question is whether they had any children. Again, there are indications that they did. Check out some of the following links.

As with any controversy, we have people online claiming to have been there and claiming to have seen that it never happened. They know that Jesus didn't have a wife and that Jesus didn't have any children because they were there and kept their eye on it to make sure. Their closed-minded, prejudicial, and pre-chosen point of view is a bit humorous from a logical standpoint. These people claim to know something that there is no way in the universe that they could possibly know. They just magically know that Jesus didn't have a wife and didn't have any children.

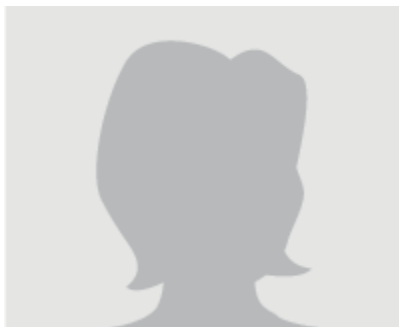

However, when it comes to Family Search, the standard procedure when it comes to disputed identities and disputed parentages is to list all of the different possibilities, do the temple work, and let the Lord sort it out and resolve it all during the millennium.

The closed-minded will keep deleting her; and, the open-minded will keep restoring her. And, it's always interesting to see from week to the next whether she exists or not, as if we can make something true simply by deleting it or make something false by claiming that it never happened.
